## Career Day at the NMS

On Wednesday, May 16, the Middle School presented the annual Career Day. This year brought a variety of experiences, including actual demonstrations and knowledgeable professionals.

The Cumberland Ferry Area Vocational Technical School set up displays in the gym from 9:00-1:15. Some of their students demonstrated the type of work done in classes such as law enforcement, horticulture, medical assistant, and various other fields. The sixth, seventh, and eighth graders were able to visit during their classes or lunch. They were also invited to climb into a tractor trailer and talk to the drivers about this occupation. These opportunities gave the students exposure to a variety of career possibilities.

More specific career information was available during the afternoon sessions, from 2:00-3:30. Thirty-nine professionals presented information about various aspects of their careers. Middle School students chose the three careers they wanted to learn more about. Representatives of the Armed Services and professions such as airline pilot, parasteg, animal health technician, micro-biology and commercial art were among the presenters. Career Day 1990 was an exciting and informative opportunity for the students of Northern Middle School.
